Questar and Rocky Mountain Power Roofing Incentive Form

DFCM strives to incorporate energy efficiency into all projects to provide the lowest cost for building operations to the State of Utah. The roof materials, will meet minimum Questar Gas, and Rocky Mountain Power efficiencies for incentives as outlined in the specifications. The selected contractor is responsible for providing all supporting documentation to DFCM to collect all rebates and incentives applicable to the project. Please email all documentation to Chris Ottley, Energy Program Specialist (contact details below).

1. Manufactures cut sheets, for Roofing material and Insulation.
